

Krisztina Vichnál

Still Life & Product CGI Artist

Visual Direction + Post Production

Budapest, Hungary

CGI Artist / Product & Creative Still Life

Krisztina Vichnál is a CGI Artist based in Budapest. With several years of experience in studio production and freelance work, she focuses on creating 3D visuals for brands, specialising in product and creative still life. Her experience includes projects for Porsche and Microsoft Design, with selected collaborations and features including Greyscalegorilla, NVIDIA Studio and Computer Generated.

Her work explores consumer products, particularly beauty, fragrance and everyday objects, through material detail, composition and light. Her practice spans visual direction, look development and lighting through to final post-production. Alongside 3D/CGI, she is expanding her practice into still life and product photography.

Seeking an in-house role or a long-term team collaboration.

CAPABILITIES

**CGI Product Visualization
Photorealistic Rendering
Look Development &
Material Creation
Studio Lighting
Visual Direction & Set Design
Post Production &
Image Finishing**

Daisy by Marc Jacobs

Glass, light & form

The bottle, its scent notes and the daisy cap shape a series of fragrance still lifes. The detail frame brings the glass, liquid and polished gold into focus.

Visual Direction / CGI
Look Development / Post Production

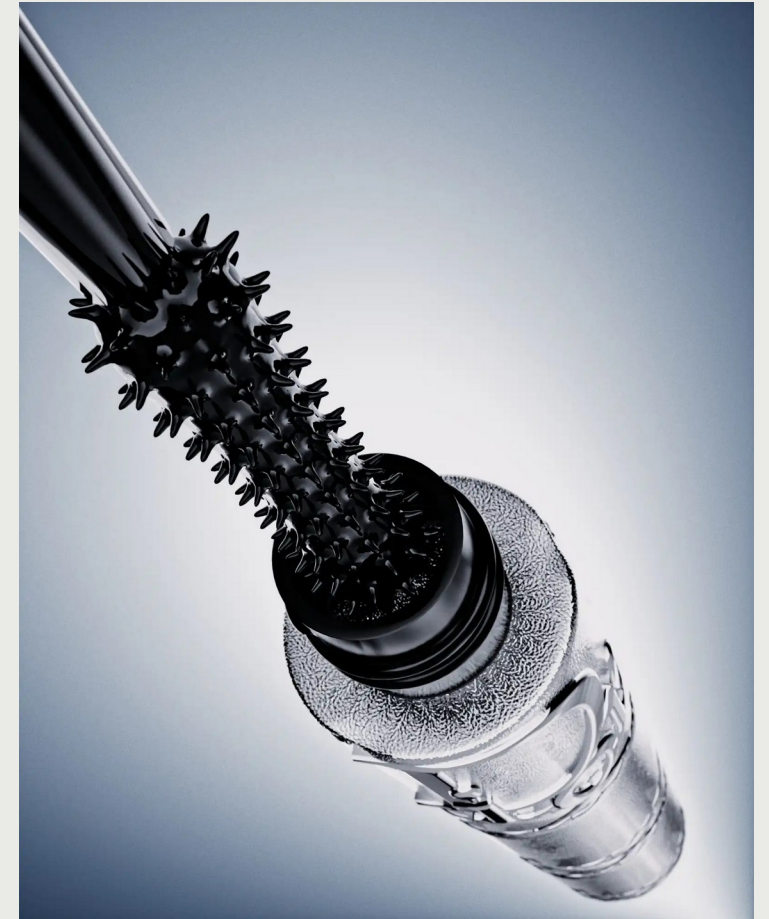

Dior Backstage

**Chrome, texture
and close detail**

Diorshow Mascara

Material studies

Pressed Pigment Series

Crayon à Lèvres

Art Direction / CGI / Look Development

MIEL

**Reflection
& silhouette**
